**Coverage of
costs for
contraceptives**

For women and men

Project in Ostholstein

Since 2018 the district of Ostholstein has supported people by covering the costs for medically prescribed contraceptives through a temporarily and financially limited pilot project.

Persons over the age of 22 years have to cover the costs for contraceptives themselves. Health insurance companies do not cover the costs.

Those who receive public benefits to secure their living can often not afford medically prescribed contraceptives. Therefore the district of Ostholstein supports these people by voluntarily covering the costs for contraceptives.

By application the costs for all medically prescribed contraceptives are covered, for example the contraceptive pill, the three-month-injection, or long-term contraceptives like hormone implants, IUD, or sterilization
There is no legal claim.

Are you entitled?

You can apply for full cost coverage for all contraceptives your gynaecologist has prescribed.

This is possible at the pregnancy counselling centres in Ostholstein.

In order to do so you must meet the following requirements:

- You live in the district of Ostholstein and are older than 22 years*
- You are not entitled to cost coverage by third parties (e.g. health insurance)
- You are currently receiving unemployment benefits from the Jobcenter (SGB II), subsistence or basic security benefits (SGB XII), housing benefits, child supplements, BAföG or BAB
You are receiving benefits under the Asylum Seekers Benefits Act and are older than 18 years

* since 29.03.2019, health insurance companies will cover the costs up to the age of 22.

What to do?
